CAREER OBJECTIVE

As an IT student focused on coding, problem-solving, and web development. I aspire to build efficient, scalable solutions while enhancing my skills and contributing to the tech industry. I seek opportunities in innovative environments that promote professional growth.

EDUCATION

Bachelor of Technology in Information Technology ,
CGPA : 9.51

Marwadi University (NAAC A+) 2022 - 2026

Higher Secondary
Percentage : 71.84%

Smt. R.A.Kalathiya Vidya Bhavan-Botad 2021 - 2022

Matriculation
Percentage : 82.16%

Vivekanand School-Botad 2019-2020

TECHNICAL SKILLS

Programming Languages : JAVA, Python, C

Web Technologies : HTML, CSS, JavaScript

Frameworks & Libraries : Bootstrap, React.js, Node.js, Express.js

Databases : MySQL, MongoDB

Software : Visual Studio Code, Jupyter Notebook, Google Colab

Version Control & Deployment : Git, GitHub

PROJECT WORK

Supermarket Management System (Java, MySQL)

- Developed an interactive shopping system featuring product listings, cart functionality, stock management, and purchase tracking with real-time data consistency.
- Impact:** Improved operational efficiency and accuracy in inventory handling for store-level workflows.

IPL Win Predictor (Machine Learning)

- Built a predictive model to estimate second innings scores and win probabilities in IPL matches using features like team, city, target score, overs, and wickets.
- Impact:** Enhanced decision-making by providing real-time match predictions with high accuracy.

E-commerce Website (HTML, CSS, Bootstrap, JS)

- Designed and developed a responsive e-commerce frontend with product browsing, detailed views, price comparisons, and user reviews for a seamless shopping experience.
- Impact:** Delivered a user-friendly shopping interface optimized for mobile and desktop platforms.

Daily Planner Web App (Frontend)

- Created a daily planner featuring task management, hourly scheduling, notes, theme switching, and downloadable PDF reports with persistent local data storage.
- Impact:** Improved daily productivity and task organization for end users through a clean and interactive interface.

INTERNSHIP EXPERIENCE

TSS Consultancy Pvt. Ltd.

Rajkot, Gujarat

Software Development Intern

Jan 2025 – Apr 2025

- Contributed to a live backend development project using Java and Spring Boot, assisting in designing APIs & implementing CRUD operations. Identified and resolved code-level issues, improving system reliability and development speed.

BrainyBeam Technology

Remote-Ahmedabad, Gujarat

Web Development Intern

May 2024 – June 2024

- Developed responsive React JS components for real-time user interfaces as part of client-facing web projects. Improved cross-device compatibility and optimized front-end performance through reusable UI design.

CERTIFICATION

- C Programming Course – (Infosys)
- Java Programming – (Oracle Academy)
- Machine Learning Foundations– (AWS Academy)
- Python for Data Science – (IBM)
- Database Programming with SQL – (Oracle Academy)

SOFT SKILLS

- Adaptability, Teamwork, Leadership
